

## A PARENT GUIDE TO CONTRIBUTIONS AND CHARGES FOR YEAR 11 AND YEAR 12

Financial support provided by parents/carers will always play an enabling role in the provision of resources that extend the college's capacity to add value to your child's learning experience. You will be advised no later than two (2) months before school commences in an itemised statement (Charges and Contribution Sheet) notifying you of the requested contributions and charges for your child for the 2025 school year.

Your child is entitled to participate in an educational program that satisfies the requirements of the *Western Australian Curriculum and Assessment Outline*. The principal, in consultation with the relevant college committees and the college board, and in accordance with the *School Education Act 1999*, the *School Education Regulations 2000* and Department of Education policies, determine all payments requested for the education of your child.

This guide will outline what your payment will be used for in your child's educational program. Payment received from you can only be used for these purposes. If they are not used for these purposes, the school must seek approval from you for the payment to be used for another purpose, otherwise a refund will be given.

### Charge (Compulsory)

#### Year 11 and Year 12 Subject Costs:

All Year 11 and Year 12 subject costs are compulsory charges. There is no maximum charge. All charges have been determined on actual cost to deliver the curriculum course and has been approved by the Alkimos College Board. The college aims to keep these charges as low as possible and they are not more than the actual cost to deliver the curriculum subject.

The charge does not include any costs funded by the college or by school grants. The college can request parents to pay up to 50% of the charge by a particular date **before** your child commences their course. Payment Plans can be arranged for this payment.

The Principal can request payment of the following courses before they commence:

- if the course has a high-cost component (i.e., Certificate II courses, Outdoor Education, Food Science and Technology etc.)
- if an external provider delivers the course. If there is no alternative course that provides an equal educational outcome.

Non-payment to the school for the course may result in the risk of cancellation.

#### Excursions/Incursions:

This charge is payable and compulsory if your child opts to participate. The charge associated with the provision of these activities, services or facilities covers the cost of providing the service or running the activity. You will be provided with a document titled *2025 Anticipated Additional Costs* for the year your child is enrolled which will indicate the maximum estimate of the itemised anticipated costs school year. Please be aware that these activities are not confirmed and may not occur during the school year. Payment for these will be requested at the time they occur.
